

HITCHCOCK SUITS ALL, SAYS DICK

Vorys Crowd Will Not Complain and Dover Beams.

DISLIKES RUMOR ABOUT QUITTING

Ohio Senator Thinks Gray Is Democrats' Best Man for Second Place.

Senator Charles Dick says the Vorys faction in Ohio will accept uncomplainingly the selection of Hitchcock as chairman of the national committee. Secretary Dover, confronted with the question, if he had not threatened two weeks ago to resign if Hitchcock was named, says it's all a mistake.

The Democratic committee is busy mailing campaign material, and saying nothing, their eyes all the while upon Denver.

Speaker Cannon has left the city for home, and a subsequent vacation.

This, in brief, is the sum total of the things doing politically in Washington today. Denver, Hot Springs, and Oyster Bay are in the limelight and beyond a few young men at the campaign headquarters, who are busy mailing campaign documents to trusting voters, all is serene.

Dover in Beaming Business.
Secretary Dover sat beaming at the Republican national committee headquarters. His beams gave way to a pained expression when a reporter asked:

"The report was current two weeks ago that you had cried aloud that you would resign if Hitchcock was named chairman. What are you going to do about it now?"

"It is a mistake. I didn't say I would resign. I was the only one really affected by the whole committee," said Mr. Dover.

"What did you say then? The report was current, current that you would not resign the selection of Hitchcock?"

"I prefer not to talk about it. I am not responsible for the misconstruction put upon my attitude."

"It is to be presumed then that you will accept the result with true Republican spirit, and not your shoulder to the wheel as the others?" suggested this reporter.

"I'd rather not talk about it now. I am still on the job," and Mr. Dover began to beam again as he disposed of the mooted question.

All Serene Says Dick.
Senator Dick, former custodian of the Foraker-Dick-Vorys sentiment in turbulent Ohio was all smiles as he talked of Hitchcock's selection. "Everything is all right," he said, "and everybody will fall in line for a great victory this fall. The chairman really should have been selected the day after the convention, letting the fellows fall in line at once. They would have done this as readily then as now. There was no necessity for waiting this long. However, it is now all settled, and Mr. Taft will not lose any strength in Ohio by the selection."

"Sure, the campaign publicity plan is all right. The time has come that the people demand it and it is well that publicity will be had, regardless of the fact that the New York laws require that the newly elected treasurer must make them public."

Favors Gray for Second Place.
"Were I a Democrat I would be in favor of Gray rather than Johnson for second place, although Johnson is undoubtedly a strong man in Minnesota. However, the Republicans will carry Minnesota this year, regardless, I believe."

Senator Dick will remain in Washington the balance of the week. He may take the stump, he says, as soon as the campaign opens.

Mr. Hitchcock passed through Washington last night, and will confer with Secretary Taft at Hot Springs.

Denver Platform Adopts Views of William J. Bryan

(Continued from First Page)

tion, the equality of opportunity, and the spirit of the American people, have largely built up the country, should at once again throw open the door of hope to the ordinary citizen of our country. This transcends in importance all other issues in this campaign.

TARIFF.

We welcome the belated promise of tariff reform now offered by the Republican party as a tardy recognition of the righteousness of the Democratic position on this question, but the people cannot safely rest the execution of this important work to a party which is so obliged to the highly protective interests that it postpones relief until after the election. And we call attention to the significant fact that the promise now made is wholly vitiated by the use of the qualifying words which the present tariff iniquities have been fostered and developed.

We favor an immediate revision of the tariff by the reduction of import duties. Articles entering into competition with articles controlled by trusts should be placed upon the free list; material reductions should be made in the tariff upon the necessities of life, especially on articles competing with such American manufactures as are sold abroad cheaper than at home, and graduated reductions should be made in such other schedules as may be necessary to restore the tariff to a revenue basis.

Every consideration of public policy suggests the preservation of our resources and the removal of those import duties which put a premium upon the destruction of our forests. Existing duties have given our paper manufacturers a shelter behind which they have organized combinations to raise the price of paper, and to impose a tax upon knowledge.

The revenues derived from import duties on pulp and printing paper are so small and the benefits to be obtained from the abolition of these duties are so considerable that we endorse the attitude of the Democratic representatives in Congress who unanimously favored the placing of pulp and printing paper on the free list.

HOUSE OF REPRESENTATIVES.
The House of Representatives was designed by the fathers of the Constitution to be the popular branch of our Government, and, as such, intended to be responsive to the public will. In order for our scheme of Federal Government to be a success, it is necessary that this purpose should be jealously guarded and protected.

The House of Representatives, as controlled in recent years by the Republican party, has been a body of executive and legislative body, responsive to the will of a majority of its members, but not to the people. It is the duty of the Democratic representatives to restore the absolute domination of the Speaker, who has entire control of its deliberations and powers of legislation.

We have witnessed the amazing spectacle of this popular branch of our Federal Government being unable to obtain a majority on a single measure of measures desired by a majority of its members.

"Sure, the government becomes a failure when one member in the person of the Speaker is more powerful than the entire body."

We demand that the House of Representatives again become a legislative and deliberative body controlled by the majority of the representatives elected by the people, and not by the Speaker, and we pledge ourselves to adopt such rules and regulations as will enable a majority of its members to direct its deliberations and control its legislation.

MISUSE OF PATRONAGE.
We condemn, as a violation of the spirit of our institutions, the act of the present Chief Executive in using the patronage of his high office to secure the nomination of one of his Cabinet officers.

PROTECTION OF AMERICANS.
We pledge ourselves to insist upon the just and lawful protection of our citizens at home and abroad, and to use all proper methods to secure for them, whether native born or naturalized, and without distinction of race or creed, the equal protection of laws and the enjoyment of all rights and privileges open to them under the covenants of our treaties of friendship and commerce, and if under existing treaties the right of travel and sojourn is denied to American citizens or recognition is withheld from American passports by any countries on the ground of race or creed, we favor the beginning of negotiations with the governments of such countries to secure by new treaties the removal of the unjust discriminations.

We demand that all over the world a duly authenticated passport issued by the Government of the United States to an American citizen shall be proof of the fact that he is an American citizen and shall entitle him to the treatment due him as such.

INCOME TAX.
We favor an income tax as part of our revenue system, and we favor the submission of a constitutional amendment specifically authorizing Congress to levy and collect a tax upon individual and corporate incomes to the end that wealth may bear its proper

tionate share of the burdens of the Federal Government.

POPULAR ELECTION OF SENATORS.

We favor the election of United States Senators by direct vote of the people, and regard this reform as the gateway to other national reforms.

STATEHOOD.
The national Democratic party for the last sixteen years has labored for the admission of Arizona and New Mexico as separate States of the Federal Union, and, recognizing that each possesses every qualification to successfully maintain separate State government, we favor the immediate admission of these Territories as separate States.

PUBLIC HEALTH.
Believing a vigorous, healthy population to be our greatest national asset, and that the growth, power, and prosperity of the country depend primarily upon the physical welfare of its people and upon their protection from preventable pestilences, of both foreign and domestic origin, and from all other preventable causes of disease and death, including the sanitary supervision of factories, mines, tenements, child labor, and other places and conditions of public employment or occupation involving health and life, we advocate the organization of all existing national public health agencies into a national bureau of public health, with such powers and duties, as will enable the Federal Government to control over public health interests not conserved by and belonging to the States respectively.

ASIATIC IMMIGRATION.
We favor full protection by both national and State governments within their respective spheres of all foreigners residing in the United States under twenty years of age, but we are opposed to the admission of Asiatic immigrants who cannot be assimilated with our population, or whose presence among us would raise a race issue, and involve us in diplomatic controversies with Oriental powers, and we demand a stricter enforcement of the immigration laws against such immigrants, and advocate assassination as a means of reforming our Government.

THE NAVY.
We hold that the Constitutional provision that a navy shall be provided, and maintained means an adequate navy, and we believe the interests of this country would be best served by having a navy able to protect and to defend at once the coasts of this country, and we believe that neither coast in future shall be left without adequate protection in the form of a fleet, and that American citizens should be protected in their rights wherever they may be in jeopardy.

PANAMA CANAL.
We believe that the Panama canal will prove of great value to our country, and we favor its speedy completion.

HAWAII.
We favor the application of the principles of the new laws of the United States to our newly acquired territory, Hawaii, to the end that the public lands of that territory may be held and utilized for the benefit of bona fide home-owners.

PORTO RICO.
For the people of Porto Rico the full enjoyment of the rights and privileges of a territorial form of government.

PAN-AMERICA.
The Democratic party recognizes the importance and advantage of developing closer ties of pan-American friendship and commerce between the United States and her sister nations of Latin America, and favors the taking of such steps as will bring about a closer union of the two continents.

AMERICA.
America, and favors the taking of such steps as will bring about a closer union of the two continents.

OKLAHOMA.
We welcome Oklahoma to the sisterhood of States and heartily congratulate her upon the auspicious beginning of a great career.

PRIVATE DEBTS.
Desiring the prevention of war wherever possible, we believe that our nation should announce its determination not to use our navy for the collection of private debts and its willingness to enter into agreements with other nations providing for the investigation by an impartial international tribunal, before standard of promotion war or commencement of hostilities, of every dispute which defies diplomatic settlement.

PENSIONS.
We favor a generous pension policy, both as a matter of justice to the surviving veterans and their families and because it relieves that country of the necessity of maintaining a large standing army.

CIVIL SERVICE.
We believe in civil service and demand that the laws pertaining thereto shall be honestly and rigidly enforced, to the end that merit and ability shall be the standard of promotion rather than political service rendered.

HOME RULE.
We assert our confidence in and admiration for the wisdom of the fathers so organizing the Federal Government as to secure home rule to the people of each State. And we pledge ourselves to combat with unceasing vigilance the efforts of those who are striving by usurpation to seize the home rule powers of the people of the Federal Government.

Believing, with Jefferson, in "support of the State governments in all their rights as the most competent administration for our domestic concerns and the surest bulwark against anti-Republican tendencies" and in "the preservation of the Federal Government in its proper constitutional vigor as the sponsor of our peace at home and safety abroad," we are opposed to the centralization implied in the suggestions, now frequently made, that the powers of the Government should be extended by legislative action and by judicial construction.

There is no twilight zone between the nation and the State in which exploitation interests can take refuge from both. And it is as necessary that the Federal Government shall exercise the powers delegated to it as that the State government shall not abuse the rights reserved to it, but we insist that Federal remedies for the regulation of interstate commerce and for the prevention of private monopoly shall be added to, not substituted for, State remedies.

AGRICULTURAL AND EDUCATIONAL.
The Democratic party favors the extension of agricultural, mechanical, and industrial training, to the end that American youths may acquire an education suitable to their needs and wants. We therefore favor enlarging the Federal grants under the Morrill and other acts of Congress for the benefits of such institutions, to enable the establishment of district agricultural experiment stations and secondary agricultural and mechanical colleges in the several States convenient for the people.

POST ROADS.
We favor the co-operation of Federal, State, and local authorities in the construction and maintenance of post roads.

CONCLUSIONS.
The Democratic party stands for democracy; the Republican party has drawn to itself all that is aristocratic and plutocratic.

The Democratic party is the champion of equal rights and opportunities to all; the Republican party is the champion of privilege and private monopoly; the Democratic party listens to the voice of the whole people and gauges progress by the prosperity and advancement of the average man; the Republican party is subservient to the comparatively few who are the beneficiaries of governmental favoritism.

We invite the co-operation of all, regardless of previous political affiliation or past differences, who desire to preserve a government of the people, by the people, and for the people, and who favor such an administration of the government as will insure as far as human wisdom can that each citizen shall draw from society a reward commensurate with his contribution to the welfare of society.

CAPT. N. BROOKS EXPECTS REDUCTION

Believed Foreign Mail Superintendent Will Take Minor Place.

Capt. Newton M. Brooks, superintendent of foreign mails in the Postoffice Department, was at his desk today awaiting the formal notice from the Postmaster General of his reduction from his present position, which pays \$3,600 a year, to a minor position paying about \$1,500 in the same bureau.

Captain Brooks said today that he still had no information about the contemplated change, except what he had gleaned from the newspapers, and that he was not in a position to discuss the matter, although he assumed that the change would be made.

Postmaster General Meyer has not yet returned from Hot Springs, Va., and other officials of the department are noncommittal on the subject. One official said today that the Postmaster General had stated that he deemed it to be for the best interest of the service that the change be made. A place paying about \$1,800 per annum in the Bureau of the Second Assistant has been held open for him. The change, it is said, will be made September 1.

Captain Brooks will be succeeded by Basil Miles, of Pennsylvania, third secretary of the United States embassy at Berlin. Miles was private secretary to Postmaster General Meyer when Mr. Meyer was ambassador to St. Petersburg.

It was said at the Postoffice Department today that no protests had been filed by Grand Army posts, although such action is expected. Captain Brooks today said that he had not been in communication with his friends in Grand Army circles, and was not conversant with their plans.

The Republican party is the party of privilege and private monopoly; the Democratic party listens to the voice of the whole people and gauges progress by the prosperity and advancement of the average man; the Republican party is subservient to the comparatively few who are the beneficiaries of governmental favoritism.

We invite the co-operation of all, regardless of previous political affiliation or past differences, who desire to preserve a government of the people, by the people, and for the people, and who favor such an administration of the government as will insure as far as human wisdom can that each citizen shall draw from society a reward commensurate with his contribution to the welfare of society.

FLOWER MEN MEET AT KRAMER HOUSES

Plans Made for Chrysanthemum Show, Picnic, and Trip to Niagara Falls

A meeting of the Florist's Club of Washington was held at the greenhouses of F. H. Kramer, in Anacostia, at which it was decided to hold a picnic to Great Falls in about two weeks, a four-day chrysanthemum show, beginning November 9 and a trip to Niagara Falls over the Black Diamond route August 17. Dinner was served and the evening was enlivened by musical renditions.

The feature of the dinner was the serving of the wines from small flower pots. Banjo solos and music by a local quartet were enjoyed by those present.

Mr. Kramer presided at the dinner and delivered an address of welcome to those present, in which he spoke of the future of the club and of the prospects for the next show.

The following committee was selected to arrange for the flower show: George Cook, W. F. Gude, George Shaffer, Charles McCauley, D. Z. Blackstone, George Shaffer and Charles McCauley were selected to make the plans for the picnic to Great Falls.

MAKES 643 MILES IN DAY.
NEW YORK, July 9.—A new world's record for a day's run has been made by the Lusitania, which logged 643 nautical miles from Sunday noon until Monday noon. The previous record was 641 miles, also made by the Lusitania. The latest feat demonstrates the practicability of the new type of propellers with which the Cunarder was fitted before she left Liverpool. Each of the new screws, four in number, is cast in one piece. They are the largest castings of the kind ever attempted. The Lusitania docked early today.

Died.
CASTLEBERG.—On July 8, 1908, after a lingering illness, EMMA, the seventeenth year old daughter of Mr. and Mrs. J. A. Castleberg, died at her residence, 323 Madison avenue, Baltimore, Md., on Friday, July 10, at 2 p. m. Interment private.

COBOUGH.—On Wednesday, July 8, 1908, at her residence, The Murray, Mrs. SARAH C. COBOUGH, wife of H. A. Coughlin, (Winchester, Va., papers please copy.) 393-21.

\$300,000,000 TRUST FOR LUMBER TRADE

ST. LOUIS, July 9.—A committee was appointed today to work out the details for the preliminary organization of a \$300,000,000 combine of lumber companies. The plan is to bring all the big lumber companies into one combine, which as a holding and operating company will regulate the business. It is denied by the organizers that any increase in prices is contemplated.

Conservation of the lumber resources is another object. F. E. Weyerhaeuser, son of the millionaire lumber king, heads the committee that will work out details of organization.

**1,000 ARE DROWNED
IN ASIATIC FLOOD**
CONSTANTINOPLE, July 9.—According to a news agency report received here today, 1,000 inhabitants of the regions through which flow the Yesil and Irmak rivers in Asia Minor have been drowned in a flood. The entire town of Tokat has been wiped out, it is said.
